

Taste the Difference

FOOD FIRST

We are **chef-led and chef-run**. With over 3,000 student approved recipes and nearly 75% of our menus prepared from scratch, students can taste, smell and see the difference when SFE is in the kitchen.

INNOVATION IN OUR DNA

SFE is built on the philosophy that **school meals can be an exceptional experience** for students. We stay ahead of industry trends to ensure every student can receive a great tasting meal in creative ways.

CUSTOMIZED PROGRAMS

With over **165 school district partners across the country**, SFE knows that every school and every district is different. As a small, nimble company SFE develops a custom approach to every partnership that is specific to the needs, goals and opportunities in each school we serve.

COMPASSIONATE LEADERSHIP

Our teams know students rely on the healthy, great tasting meals we serve, and **we take that responsibility seriously**. We serve our own team members with heart and their growth in mind.

“It’s great tasting food, it’s restaurant quality food... And they have taken the ‘tradeshow experience’ and translated it to our cafeterias. Since we transitioned to SFE, we are serving 6,000 meals per month than we were last year.”

Dr. Rick Garcia
COO, Plainview ISD
(TX)

SFE Partner since
2019

Let’s talk about your
challenges!

Fueling Hungry Minds is a Big Responsibility

Experience has shown us that when students are given the option to choose scratch made meals, they are more likely to go through the line AND eat the food that fuels their minds and bodies.

Our team of chefs and dietitians work together to create a menu for your students that is creative, diverse and drives participation.

By using **fresh, whole ingredients**, our team strives to limit the use of pre-packaged foods, so **healthy and great tasting meals are an easy choice for students**. Our from-scratch methods will maximize your USDA commodity entitlements and deliver customized, innovative recipes to every plate.

SFE believes that taking the extra time to deliver an exceptional culinary experience is one of the greatest ways we can serve your students and community.

If you’re ready to taste the difference, let us know!
